

Williams Lake Boitano Bike Park

In August of 2010 the Williams Lake Cycling Club, City of Williams Lake and Cariboo Regional District were proud to open the newly constructed Boitano Bike Park. Covering over 10 acres, the park is the largest of its kind in the interior of BC. It has 6 major jump lines, pump track, drop zone, flow trails and log work right in the centre of the City. We suggest a run on Fox Mountain (Hillbilly is amazing) then role down Broadway to the Greyhound station, over the bank and you're in the park. Or just session the park all day while the rest of the family relaxes on the grassy fields of Boitano Park.
