Williams Lake
WestSyde Trail Network

This is an intermediate to advanced network with many beginner options. The Westside network has 40 trails with over 97Km of singletrack, including the legendary Box Trail loop which is a XC epic with view of the Fraser River and covers over 25Km. The network is also host to some of Williams Lake most progressive free-riding.

- Bellie DH Downhill Intermediate
  Head to Bell-E Acres, but don’t rent clubs. Park out of the way and then nicely and quietly cut through the parking to the trail head down the drainage. This trail has a few pedals to start but basically flows to Birch Lane and

- Bellie Golf Course All Mountain Intermediate
  This trail starts from Bell E Acres and into Bell E DH. Offers a little alternative.

- Bellie-XC Cross Country Intermediate
  This trail contours an awesome ridge system from West to North over looking Williams Lake. Get your pedal on to experience some nice ride’in. Connects to Bellie DH and the North side of the network.

- Birch Digler Downhill Advanced
  Built by the first group of sprokids in Williams Lake, this crew nailed down a Williams Lake DH classic. Steep, sandy and tight straight to the River Valley.

- Booga Wooga Cross Country Intermediate
  One of the local favourite all mountain trails. Follow an awesome rolling bench beneath Ravin & above the River Valley. Provides access to Ash Tray & return from Ravin.

- Brakecheck Downhill Advanced
  From Ravin or Booga Wooga cruise to the Ash Tray proproer, then check your breaks. Old school steep trail falls away through some fun features and ends at the River Valley trail.

- Cherry Popper All Mountain Advanced
  Hit Cherry Popper from Birch Lane for a freeride experience. Go down to Browny Wings, or keep er' pinned all the way to Spokey Hollow. This is a great climb to access the deep westsyde experience

- Cowtrails Cross Country Intermediate
  Makes a loop from Box Trail to the River Valley through open medows. Easy scenic ride.
- **Crankcase**   **All Mountain**   **Advanced**  
  Ridable in both directions, providing access to Repeater Tower as a climb, or from the repeater tower as a downhill that connects to Spooky Hollow.

- **Dead Sailor**   **Downhill**   **Advanced**  
  From the Repeater Tower, ride the face sliding through tight corners all the way to River Valley - hold on to your handlebars. Shout out to Shannon!

- **Deertrails**   **Cross Country**   **Intermediate**  
  Ancient game trail that follows Esler meadows to the River Valley. Nice flowy all mountain trail, fun for everyone.

- **Daw' Gone**   **Downhill**   **Intermediate**  
  The bone that every dawg loves - this singletrack connector is critical for milking out all that is Williams Lake. Start at the Red Dawg Pub and ride our to Westsyde or start on Highway 20 and flow into the Southside network.

- **Esler Flatz**   **Cross Country**  
  Off Snyder Road this trail heads to the flats and connects to trails on Highway 20. Has been manicured by ATV's and golf carts.

- **Hung**   **All Mountain**   **Intermediate**  
  Continuation of the Snakes & Ladders downhill option, head across the power line to fast flowy trail with some historic stunts. Connect to Deer Trails and Spokey Hollow.

- **Jack Tiger**   **All Mountain**   **Easy**  
  Names after a local horse logger, who somehow laid down some really nice trail. Goes from Highway 20 to Roberts Dirve.

- **Kitchen Sink**   **Cross Country**   **Intermediate**  
  Feels like a cycle cross course, this trail has been logged and abused by ATV's. You can still ride it to get to Bellie XC.

- **Logyard**   **Cross Country**   **Easy**  
  This trail gets you from the double track road up and into the Spokey Hollow zone or an easy way down not riding Lower Max.

- **Lower Max**   **All Mountain**   **Intermediate**  
  Start at Sal's Bridge and take a big breath. Once you ride over the fence, you're at the Spokey Hollow trail hub or you've just finished one of the sweet downhills and are heading for lunch at the Gecko, either way you're gonna ride this baby.

- **New Box**   **Cross Country**   **Advanced**  
  A classic intermieteate XC trail. Continuation of Box that follows the ridge to the junction of Ravin.

- **Outter Max**   **All Mountain**   **Advanced**  
  Starts off Ravin before the Powerline or ride all the way from the River Valley. This master piece
of sidehill technology was created by the legened himself know to all as 'Jim'. One of the most wrothy climbs or a cheek splitting enduro downhill - you will love this trail.

◆ Old Westside
  All Mountain
  Advanced

◆ Phil Me Crackin
  All Mountain
  Intermediate

Technical side venture from Snakes and Ladders for those riders looking for their fill of skinnies and other stunts.

◆ Ravin
  Cross Country
  Intermediate

Starts at the top of Crank Case just off the Repeater Tower Road. When you leave the road after Crank Case the trail will start on the right after about 20 meters. A new line built in 2011 starts just after the first openish gully you cross, look low right for the start (Sign's coming). This epic XC trail that follows height of land west above the Williams Lake River Valley towards the mighty Fraser River. Keep pedalling across the power lines and you'll reach an open meadow. Directly across the meadow is the final leg up to the first nipple. The trail then drops along one of the sweetest DH's through a Fir forest to connect to a hub of trails at the Ashtray and return on Booga Wooga.

◆ R.I.P.
  Downhill
  Intermediate

This is an old First Nations trading trail at the confluence of Williams Lake river and Fraser River. It starts at the Cross and ends at a campsite. The trail is steep and sandy.

◆ Sinful
  All Mountain
  Intermediate

One of those lines that you can hit after a sweet downhill that puts you back into the zone all over again, its just sinful.

◆ Snakes and Ladders
  All Mountain
  Intermediate

The premier freeride trail in the Cariboo and possibly in the interior, Snakes and Ladders was completely re-built in 2012. It incorporates over 22,000 board feet of Cariboo lumber in sky berms, tables, step downs, and other features with the tightest and fastest single track around.

◆ Spokey Hollow
  All Mountain
  Advanced

Original line on Westsyde, ridable both ways. Sweet trail winding along a drainage with some nice features on route. Climb up to the Repeater Tower or head down from the upper zone, this is a sweet core connector to all Westsyde.

◆ Sweet Pete
  Downhill
  Advanced

Starts at the Repeater Tower and goes down something so steep, your actually floating. This trail keeps going and stays thrilling, all the way to the River Valley.

◆ Westside
  Downhill
  Advanced

Access from the Repeater Tower, was the sickest free ride trail till it got cut down. The new big zone in Westsyde.

◆ Ye Old Box
  Downhill
  Advanced

After 4 corners, hang a left on steep to the valley bottom then a fast traverse through the forest
to the Fraser River jeep road

- **Ye Old Box**  Cross Country  Advanced
  The XC test piece. Long and right on the edge. After 4 corners, hang a left on steep to the valley bottom then a fast traverse through the forest to the Fraser River jeep road.

- **Peel Out Super DH Course**  All Mountain  Intermediate
  Used as a course

- **Backdoor**  All Mountain  Advanced
  Built by the expert craftsman and generally skilled dude, Chris Masters, this 6 year project was completed in 2011 and opened up a whole new style of building in the region. Chris was instrumental in building the new Snakes and Ladders trail in 2012, and Backdoor provides some insight into why it turned out so well.
  Starting about 300m from the start of Snakes and Ladders you'll turn right into the line. It starts with a long all mountain section that climbs to a high point just before the Ravin crossing. You can either ditch here and turn right on Ravin and hook up with the south part of the network, or get your serious all mountain on and enjoy this freeride journey. With progressive jumps and natural transitions this flowy trail will leave you grinning ear to ear. After you cross Booga Wooga (the last bail out) you descend down a steep section to finish it off.

  This trail is best shuttled as you are far down the River Valley when you're done. To shuttle, drive past the dump off Mackenzie avenue and just left of the transfer station you'll see a gravel road heading down. Cross a sketchy bridge and turn right to the parking lot where the trail ends.
